## FROM THE PRINCIPAL . . .

## SAINT OF THE WEEK

### Meet St. Dominic

- My Feast Day: August 8
- I am the patron saint of astronomers, the Dominican Republic, those falsely accused, and the Dominican Order.
- I was born to a faithful Christian family in 1170 in Castille (Spain) and received an excellent religious education.
- I joined a religious community and encountered many heresies in the Church.
- I founded the Order of Friars Preachers (later known as Dominicans) in 1216 to combat heresy and revive theology scholarship in France, Spain, and Italy.
- I am holding a rosary because the Blessed Virgin Mary appeared to me in 1214 and gave me the first rosary, which I helped make a popular devotion.
- I traveled preaching across Europe until 1221 and died from illness at the age of 51.
